

# PRISION INMATE SVG TIPS

STEP 1. Upload file into Cricut Design Space.

STEP 2. To create a unique prision number, such as their birthday, turn the numbers white and drag the ones you need onto the rectangular block.

STEP 3. Select all the numbers and align --> top. Distribute --> Distribute Horizontally.

STEP 4. Group the numbers. Center --> Vertically. Center --> Horizontally.

STEP 5. Select the rectangular block and the numbers. Right click and choose combine --> exclude. This will "knock out" the numbers from the block making it a one vinyl cut of just black. The color of the shirt (in my example, orange) will now show through the numbers.

STEP 6. If desired, add the name of the team, school or group to the top of the "DEPT. OF CORRECTIONS" header to personalize.

STEP 7. For a group sports costume, use the numbers on the back as their jersey number.
